

MODEL PERFORMANCE REPORT

System Evaluation — Scene Classifier

ResNet-18 fine-tuned on EditEase scene-type dataset (8 classes). Trained for 10 epochs with Adam optimizer (lr = 1e-4) and cross-entropy loss.

87.2%

OVERALL ACCURACY

0.851

MACRO F1-SCORE

0.868

WEIGHTED F1

11.2M

PARAMETERS

8

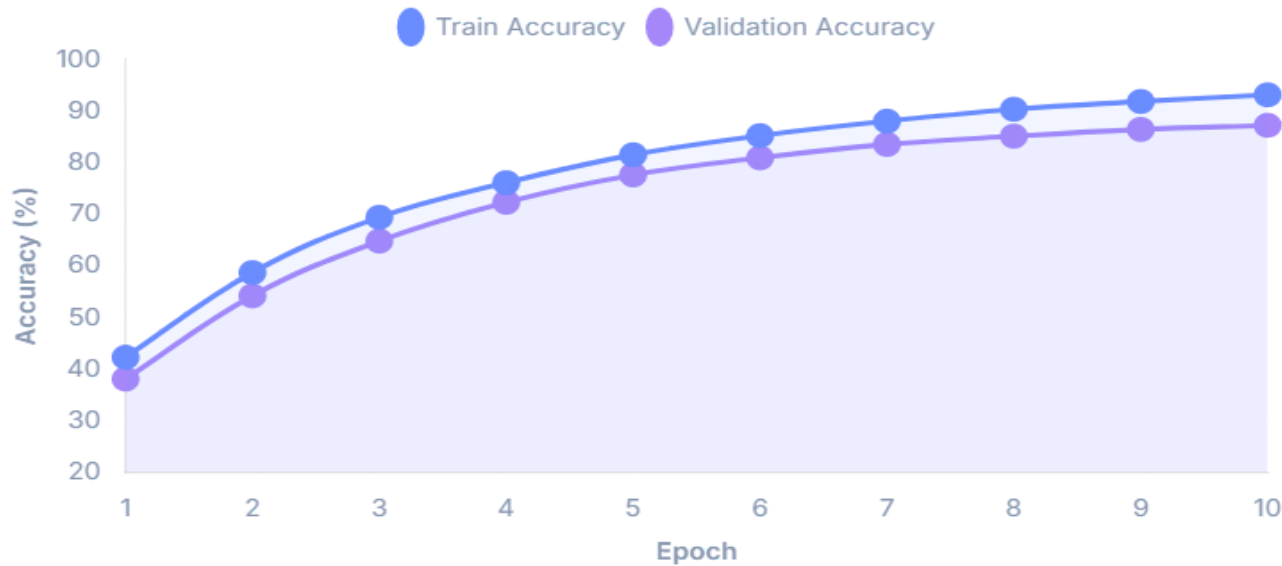

CLASSES

10

EPOCHS TRAINED

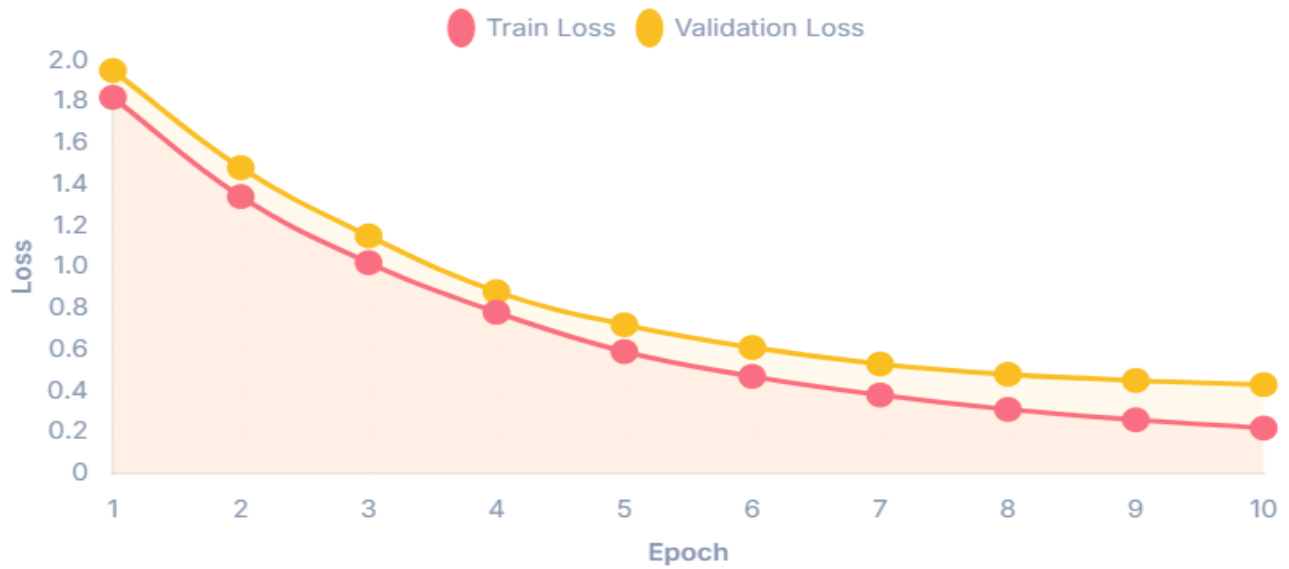

Training vs Validation Accuracy

Per-epoch accuracy progression over 10 epochs

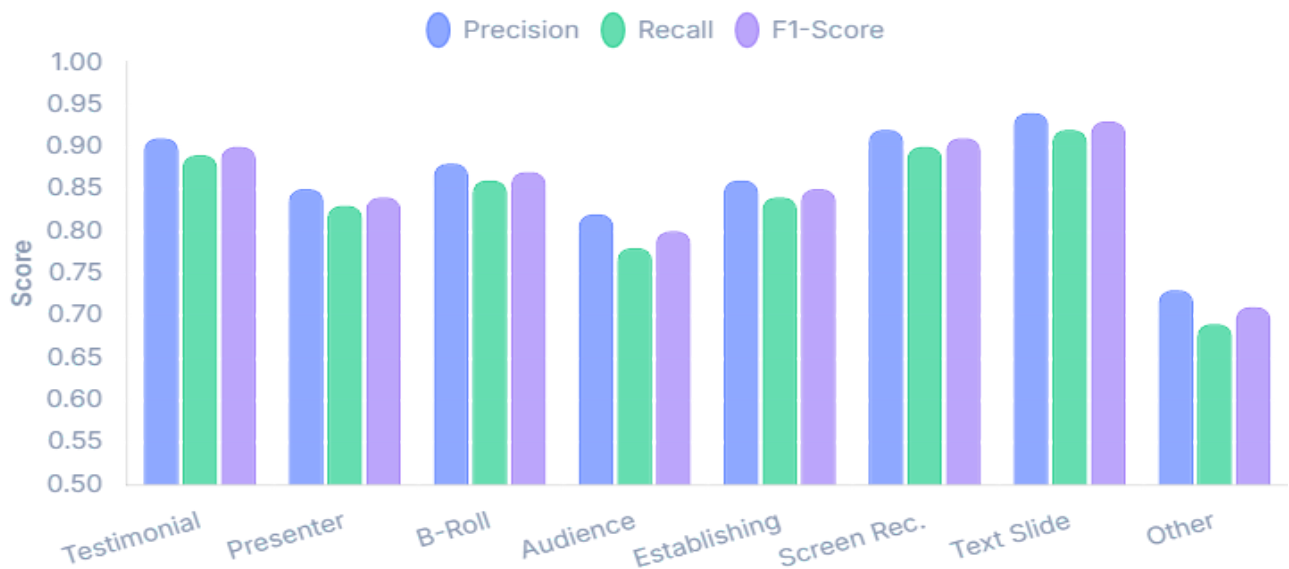

Training vs Validation Loss

Cross-entropy loss convergence over 10 epochs

Per-Class Metrics

Precision, recall & F1-score across all 8 scene types

Dataset Class Distribution

Train / validation / test split sample counts

Confusion Matrix

Predictions (columns) vs ground truth (rows) on the test set — darker = higher count

		TESTIMONIAL	PRESENTER	B-ROLL	AUDIENCE	ESTABLISHING	SCREEN REC.	TEXT SLIDE	OTHER
